Afternoon J. W. Barton called. Spoke to him about the publication scheme of the T. S. He wants to be the N.Y. house to bring out the books. He recommends that the London publisher should print the books, & the Bombay and N.Y. houses take of them a certain number of copies at 1/2 the publication price, so as to divide the cost in three parts - the expenses of publication he estimated 250 copies as the number to be taken by N.Y. and Bombay. This plan would relieve the Pubⁿ Fund of the Socy from contributing towards that part of the expenses. Leaving it to pay only the editorial portion.

Carbon C. Pa
in presence of Mr Fletcher, Mr J. H. Brewster, Mr
Edward Field (of Sanderson Bros & Co Sheffield Eng)
and young Mr Fletcher. Eaton first had a cold
chisel tested. It cut a cast-iron socket all round
without springing edge. Then tried one of the shop tools
on a file which it would not penetrate. Then tempered
it his way & it bored right into it. Then I brought
at a neighboring shop a 20 let skinner sheath-knife.
Hacked at an iron bolt with it until edge was
quite spoiled - knicked like a saw. Eaton then
tempered the blade, & the knife hacked iron & cut
cast iron without the edge being injured.

Edison. Found him a plain mechanic-like
man. His inventions come to him by flashes
as he walks the street. I am conscious often
of a faint perception of his mind - of carrying
on simultaneously two distinct trains of
thought. But these instantly lapse into one
when he notices the phenomenon. Says he
is searching after the possibility of telegraphy
by means of the vital fluid. His experiments
with wire pass over a pendulum, using
cords of various kinds as conductors from his
fingers to the object. Fancies he succeeds
once or twice. Will join the P.S.

Evening. Garrison was brought today's
Graphic with an article on the arrival
of Countess Pashkoff. At 10 pm
H.P.B., H.S.O. and Harriette went to call
on her at 5 Ave Hotel & stayed until
midnight. A theatrical looking woman.
Once perhaps, a tolerable beauty, but
now faded. Clever, bright, adroit-mistress
of all sets of society. A wrecked rotary
oppression abandoned by friends, either by
husband and servant, adrift on the
sea of life. Death, after a feverish interval
of thirst and suffering, is her only refuge, and
then —

Heard today from Mesmer's advance party
who had reached Port au Spain.

Evening. H.P.B. and I went at 10.30 pm

London, the "lord of roses" man. He is
an innocent fool - not at all a Great
man.

Just volunteered to give his affidavit about
the father portrait. I expect to be rewarded
sometime.

Wednesday, March 20. 1878.

to dine tomorrow.

Evening. D. A. Curtis called back on 6 for an expert
to see "Old Thip's" ghost. Deceased was a drunken
night watchman whose body was found under a
broken pier at foot of 39 & St E.R. His vision
has been seen walking since. Belle Mitchell
and we two went in carriage from home at
11 pm, & returned at 1. Morn'g at night, air
calm but cool. Beise Curtis met reporters
of the other papers, among them Cunnelly of the Sun.
Capt Murphy, Captain of the Police for that District
accompanied the party. A long & fruitless wait
during which I smoked & talked with Belle, &
H.P.B. Sincorned spoke with the whole group of reporters
with as much result as if she had poured water
down a rat-hole.

Thursday, March 21, 1878.

Today was appointed for Mrs. (H.P.) Daniels, & "Lulu"
Rubi to call & judge Mr. H.P.B.

She came & H.P.B. was struck. Found
instead of an old, stuffy Woman's Rights group
there entered a young, pretty, independent,
free-thinking lady, who asked for
a cigarette!!!

Mrs. Paschkoff came with Dr. de
Plaesser.

A. M. Ayres escorted Mrs. Daniels

Friday, March 22, 1878.

catalogues about 7. & postpaid.

Evening - then had to see Mrs. Partridge.

multifarious articles from Helen &
the audience being generous.

stayed until 1.45 a.m. last case
& had to take carriage home.

Met then Messrs. Johnson, Curtis (D.D.),

divan for the ladies by bringing in his
mattress & laying it on the floor.

Saturday, March 23, 1878.

Received letter from Oscar with picture on
envelope of a Devil writing a bit on
a crosspiece. The letter evidently written
in a brief moment, when he was not
under control.

1st B's first letter to Prigge received
from Knappe's introduction.

Evening spent at Miss Winchester's
where we saw Paschke, Paris
Winbridge, C. Sothern, & Miss Horner
— who had a superb voice.

clever fellow, he is.

Sunday, March 24, 1878.

HSD was out of the body much last night
& enjoyed it hugely, as usual, & very to come back
but had to, and - found a big crawling on his
chest - "Facilis Descensus Abni".

Mme. Poulencourt called but was not visited.
Cyris. Manos also met the same fate.

Evening. Paschkeff, Curtis & Schuman to him.
After dinner Paschkeff told short stories
for Curtis's benefit & HSD interpreted
them to him. Told wonderful adventures
with H.P.P.s in Cairo and the Libanus.
(Evostrad &c.)

1. a.m. A snow storm came up most unexpectedly
and so Wimbidge and HSD took Paschkeff
home in a carriage. Miss P is a curious
creature. Her ideal of society has not dimin-
ished her naturalness or innate honesty. She is
helpless as a child, accustomed to be waited upon,
cared for, & protected, is shut to be helpless to the last
degree. The society she depicts is something in-
finitely shocking, revolting to decency, a shocking
mire of moral pollution. She has herself been treated
but more a victim than the opposite. At 40 she seems
a kitten in playfulness, a babe in helplessness, but inside a
woman of extraordinary and terrible strength.

Monday, March 28, 1878.

Three notes, one by post, and the mass of the
"Conference" today from Lydia P. to H.P.B.

Evening. My son John Dabbledy was
called. Is "dressed" & "interested"
with his uncle. For now, he was
impressed by having to carry home a huge
sack-bulk of cuttings about the 7. I
to look over!

Wrote H.P.B.: letter to Spett about the notes
in ref. to "Late Madras C.S." an insu-
lter blackguard. H.P.B. almost exploding
with rage at Europeans, Americans, and
the whole catbottle in general; the condition
being mainly caused by reaction from
Jack who was mad enough all day to
bite the head off of a tempering nail.
An angelic creature is an Jack when her
benisons are stopped upon.

Tuesday, March 26, 1878.

Sent letter to Jeff on registered letter.

Evening Lavis here, & a rough & tumble fight
going on about Russia & England. If Curran

make confusion worse compounded.

Wednesday, March 27, 1878.

The girl Charlotte reports that since the
morning newspapers that C. S. takes into
his room to read are saturated with his
eloquent odor.

Evening. Paris to dine. Mrs Robinson, the
American estate came in before we
had finished, & I saw her in C. S.'s
room. The poor creature is half insane
tells of sitting in a Council in the
7th place & with Jones and others. Col
J. Christ has taken great pains to go
through the Bible with her & show just
what he meant by what is written there!
Mrs R (921 Park Ave. City) says she is
the first woman for several hundred years
to reach her high degree in Spirit Life!

Mrs J. H. Daniels called alone. A plucky
little woman. Carries a pistol, & smokes cigarettes
in a pipe-cigarette. Edits the "Golden Rule"
(Rev W. H. H. Murray's paper), & makes
things jump when she chooses.
Mrs. H. H. K. & 15 Centre Block (32 St + Grand St W.C.)

Evening. Mrs. Paschke, Dr. de Plasse, Winthrop
and C. S. here. Mrs. P. has been charged
\$20 by Mrs. Winthrop for the week's board
- a most vulgar extortion, since she is rich, &
has pretended she would be pleased to have
Mrs. P. as a guest. Dan....., who is
on guard today is disgusted beyond measure
and his fancy turns loving for the people
of Old India - no, I mean India.

Mr. Howard gave me letter to W. Jewett Dir.
of Savoy Club London about my plays.
The man for me to see is Wills, author

Dr. Anna Marie Paschke, D. de Plasse,
& of Dmaran. The Doctor gave a
most minute & frank description
of the female organs of generation &
discussed the importance of the hymen
as an evidence of virginity! This
subject for philosophers like ourselves
but still I doubt in all seriousness
per a scientific question.

Poor Edith's tongue! She says from her
lips that she has joined the Church, when
she expects to find "Catholicism"

not so much. Again, I write the Catholics!
Wrote Dr. W. D. Black & Tolly about
her case.

helped wash the dishes & made up H.P.B.'s
